

# Mini-Solar No. 3

WEICON has been developing and producing various types of cable stripper since 1967. These premium quality tools are TÜV-tested, carry the GS seal for verified safety, and were developed taking occupational safety and user-friendliness aspects into account. The WEICON range includes cable strippers, cable dismantling tools, wire strippers and various multifunctional tools for professional users.

## Description

The WEICON cable dismantling tools allow all common round cables to be stripped quickly and safely. The product family of cable dismantling tools includes various types, which have proved to be easy to use and to produce accurate results.

The Mini-Solar No. 3 allows all common solar cables to be stripped quickly and easily. There is no need to adjust the cutting depth. The integrated length scale allows solar cables of 1.5 - 2.5 mm<sup>2</sup> (16 - 13 AWG) and 4.0 - 6.0 mm<sup>2</sup> (11 - 8 AWG) to be stripped. The Mini-Solar No. 3 is also suitable for NYM cables of 3 x 0.75 mm<sup>2</sup> and flexible cables of 10 and 16 mm<sup>2</sup> (7 and 5 AWG). The Mini-Solar No. 3 also has an easily-accessible side cutter for cables of up to 4 mm<sup>2</sup> in diameter (12 AWG). When the cable dismantling tool is used, an accurate cutting form is seen during stripping.
