- Suitable extinguishing media: Foam, dry chemical powder, water mist, carbon dioxide.

Specific hazards arising from the chemical

Combustible. May form dangerous gases and vapours in case of fire. In case of fire may be liberated: carbon monoxide and carbon dioxide.

- Protective equipment and precautions for firefighters: Wear self-contained positive pressure breathing apparatus and full firefighting protective clothing. In case of fire and/or explosion do not breathe fumes.

6. Accidental release measures

- Personal precautions: Provide adequate ventilation. Use a breathing protection against vapors/aerosol. Do not breathe gas/vapor/spray. Wear appropriate protective equipment. Take off contaminated clothing and wash it before reuse. Keep unprotected people away. Avoid contact with skin and eyes.
- Environmental precautions: Do not allow to enter into ground-water, surface water or drains.
- Methods for clean-up: Absorb with liquid-binding material (e.g. sand, diatomaceous earth, acid- or universal binding agents) and place in closed containers for disposal. Clean using cleansing agents. Do not use solvents.

7. Handling and storage

Handling

- Advices on safe handling: Provide good ventilation and/or an exhaust system in the work area. Do not breathe gas/vapor/spray. Wear appropriate protective equipment. Avoid contact with skin and eyes. Take off contaminated clothing and wash it before reuse. When using do not eat, drink or smoke. Wash hands before breaks and after work.
- Precautions against fire and explosion: Combustible. Keep away from sources of ignition - No smoking. Avoid heating effect.
